SUMMARY

Entry-level Data Analyst with a B.S. in Data Visualization and minor in Informatics from the University of Washington. Skilled in SQL, Python, R, Tableau, and Power BI, with hands-on experience building interactive dashboards, geospatial data pipelines, and stakeholder-facing reports that turn complex datasets into clear, actionable insights.

EDUCATION

University of Washington | Bothell, WA

Sept 2023 - Dec 2025

Bachelor of Science in Data Visualization, Minor in Informatics, Dean's List | GPA 3.5/4.0

Relevant Coursework: Database & Data Modeling, Data Science Foundations, Client-Side Development, Communication in Data Visualization, Web-Based GIS

Tacoma Community College | Tacoma, WA

Sept 2020 - Jun 2022

Associate of Arts (DTA), College Bound Scholarship, Dean's List

PROJECTS

Peas on Earth: P-Patch & Light Rail Accessibility Map

Nov 2025 - Dec 2025

- Built an interactive geospatial dashboard in JavaScript and Mapbox GL JS, integrating 3+ years of location data to help users query food access and transit patterns across Seattle.
- Standardized raw spatial data from 3 disparate sources into a clean GeoJSON pipeline, resolving inconsistencies and improving data reliability for downstream analysis.
- Designed interactive filtering and time-series controls, enabling non-technical users to independently identify food-access trends with zero training required.

Campus Cop Web Application

May 2024 - Jun 2024

- Led a cross-functional team of 4 to design and deploy a data-centralized web application, consolidating campus safety resources into a single platform used by the student body.
- Built and tested responsive UI components in JavaScript, HTML, and CSS, improving usability across 3+ rounds of iterative user feedback.
- Deployed and hosted the application on Firebase, achieving reliable uptime for continuous public access.

TECHNICAL SKILLS

Languages: SQL, HTML/CSS, Python, R, JavaScript

Visualization & BI Tools: Tableau, Power BI, ArcGIS, Mapbox GL JS, Shiny

Data & Analysis: Excel, Data Cleaning, Exploratory Data Analysis, Regression Analysis, Data Modeling, Dashboard Design

WORK EXPERIENCE

Kim's Nails | University Place, WA

Jan 2021 - Jun 2025

Operations Manager

- Analyzed weekly sales and inventory data across 10+ product lines in Excel, surfacing trends that informed launch decisions and contributed to a ~5% monthly revenue increase.
- Built bi-weekly stakeholder reports by aggregating sales, inventory, and vendor data into actionable summaries, giving ownership clear visibility into performance across all product lines.
- Tracked and reconciled inventory data across 10+ product lines, reducing reporting errors and keeping stock records accurate for a 4-person team.
- Coordinated data-informed scheduling for a team of 4+ staff, maintaining operational efficiency and service consistency during peak periods.
