

Thuy Nguyen

Seattle, WA | nthuynnguyenn25@gmail.com | [LinkedIn](#) | [GitHub](#) | [Tableau](#)

SUMMARY

Entry-level Data Analyst with a B.S. in Data Visualization and a minor in Informatics. Proficient in SQL, Python, R, Tableau, and Power BI. Experienced in building interactive dashboards, geospatial data pipelines, and stakeholder-facing reports that translate complex datasets into actionable insights.

EDUCATION

University of Washington | Sept 2023 - Dec 2025

Bothell, WA

Bachelor of Science in Data Visualization, Minor in Informatics, *Dean's List* | GPA 3.5/4.0

Relevant Coursework: Database & Data Modeling, Data Science Foundations, Client-Side Development, Communication in Data Visualization, Web-Based GIS

Tacoma Community College | Sept 2020 - Jun 2022

Tacoma, WA

Associate of Arts (DTA), *College Bound Scholarship*, *Dean's List*

PROJECTS

[Peas on Earth: P-Patch & Light Rail Accessibility Map](#)

Nov 2025 - Dec 2025

- Built an interactive geospatial dashboard in JavaScript and Mapbox GL JS to visualize food access and transit relationships across Seattle, enabling users to query and explore 3+ years of location data.
- Executed a data wrangling pipeline, standardizing raw spatial data from multiple sources into GeoJSON and resolving inconsistencies across 3 major datasets.
- Implemented interactive filtering and time-series controls, allowing end users to identify patterns and trends in food access changes over time without technical expertise.

[Campus Cop Web Application](#)

May 2024 - Jun 2024

- Led a cross-functional team of 4 to design, build, and deploy a data-centralized web application consolidating campus safety resources into a single accessible platform.
- Built and tested responsive UI components using JavaScript, HTML, and CSS, improving usability and navigation based on iterative user feedback.
- Deployed and hosted the application on Firebase, ensuring reliable uptime and public access for the student user base.

[The Digital Age vs. Seattle's Homeless Elderly](#)

Feb 2024 - Jun 2024

- Led UX wireframing for a 5-person team, designing the full user flow and 4 low-fidelity prototypes to address digital accessibility barriers faced by Seattle's homeless elderly population.
- Applied accessibility-first design principles in Figma to simplify navigation and reduce cognitive load for elderly users with limited digital literacy.

TECHNICAL SKILLS

Languages: R, SQL, HTML/CSS, JavaScript, Python

Visualization & Tools: Tableau, Power BI, ArcGIS, Mapbox GL JS, Shiny, Figma

Data & Analysis: Microsoft Excel, Data Cleaning, Exploratory Data Analysis, Regression Analysis

WORK EXPERIENCE

Kim's Nails | 2021 - 2025

University Place, WA

Operations Manager

- Analyzed weekly sales and inventory data across 10+ product lines to support data-driven launch decisions, contributing to a ~5% monthly revenue increase.
- Built bi-weekly stakeholder reports by aggregating sales, inventory, and vendor data into actionable summaries for ownership; managed full inventory pipeline across all product lines.
- Managed inventory pipeline and coordinated workflows for a team of 4+ staff, maintaining operational efficiency during peak periods.
